adillard@danville.ca.gov

TJKM FEE:

\$30K

PROJECT DESCRIPTION:

TJKM analyzed exiting weekday and weekday parking conditions for the Danville Downtown and developed a comprehensive Parking Management Plan. The study analyzed parking needs of all users including visitors, employees, business owners and residents. We also considered negative impacts of High School student parking on weekdays and Farmers Market visitor parking over the Saturdays into the residential neighborhoods. The Plan explored various short-term and long-term strategies to improve parking operations and efficiencies. This included parking enforcement, employee permit parking, time restrictions, In-Lieu Fees, Shared Parking, Paid Parking and many other TDM Strategies.

VISION THAT MOVES YOUR COMMUNITY
